FALCHEM O-G LUBE

OPEN GEAR GREASE

DESCRIPTION:

OG-LUBE is a specially formulated lubricant to provide an excellent adhesive film of lubrication immediately on application.

CHARACTERISTICS, ADVANTAGES & APPLICATIONS:

- **STABLE PRO-LONGED LUBRICATION** – Outstanding tacky property with film adhesive strength allows it to snap back, string out and re-lubricate continuously on gear surfaces to eliminate dry, bare spots.
- **EXCELLENT STAYING POWER** – Special tacky formulation ensures non-drip application, dry-out, melt, sling-off or build-up between gear teeth. OG-LUBE continues to cling and lubricates even at high speed.
- **RESISTS CONTAMINENTS** – As it stretches, foreign contaminants fall off preventing surfaces abrasion caused by big particles such as grit and stones.
- **RESISTS WASH-OUT** – OG-LUBE contains no harmful ingredients, is completely water insoluble and provides excellent lubrication and protection of open gear under wide operating conditions ... withstand moisture under even hot, steamy conditions and under water applications.
- **HEAT STABLE** – High heat resistant with stability in temperatures from -20°C up to 250°C . Safe heat operating range is also enhanced as it stretches out with each revolution allowing good cooling to take place.

TYPICAL PHYSICAL PROPERTIES

Color : Light Brown
Specific gravity (25°C) : 0.98
Flash Point : $> 63^{\circ}\text{C}$

APPLICATION

Shake can well, hold upright and apply area to be lubricated from a distance of 18-20 inches. Spray liberally and evenly over the surface even while gear is running.

Old lubricant need not be removed from gear surface before applying OG-LBE.

SAFETY AND HANDLING

HANDLING	Handle with care. Store in dry, cool and well ventilated environment.
SAFETY	IMMEDIATE ACTIONS
Eye Contact	Avoid Eye Contact. Otherwise, flush with plenty of water for a few minutes. Seek medical attention.
Skin Contact	Avoid Skin contact. Otherwise, wash contaminated area thoroughly with water. Seek medical attention.
Inhalation	Do not breathe gas/vapors. Otherwise, seek fresh air source at once. Seek medical attention. In case of insufficient ventilation, wear suitable respiratory equipment..
If Swallowed	Avoid ingestion. Otherwise, consume considerable quantity of water. Do not induce vomiting. Seek medical attention.
General instructions	Avoid spillage, splashing and mishandling. Precautionary measures for body protection are strongly recommended before use.

PACKING SIZE: 25 LITER, 200 LITERS PAIL/DRUM
